Job Title: Cross Connection Control Inspector
Department: Municipal Division -Virginia
Reports To: Municipal Division Operation Manager
Date: May 24, 2011

Summary

Our business is growing! We are accepting applications for a position in the City of Virginia Beach, VA area.

Under the general direction of the Municipal Division Operations Manager, the Cross Connection Control Inspector conducts inspections at client facilities for the purpose of preventing either backflow or backsiphonage of possible contaminants/pollutants into the potable water system.

Essential Duties and Responsibilities

- Inspect businesses, commercial and industrial establishments and other types of buildings and operations which are covered by state and local cross connection laws and codes. Inspect water inlets and points of use advising water consumers of necessary protective devices that must be installed.
- Conducts follow-up inspections to insure that devices/assemblies have been properly installed and / or recommendations have been implemented.
- Manages daily client communications, data and reporting.
- Maintains necessary inspection reports and notices using computerized system.
- Coordinates inspection scheduling and meets quality / quantity requirements.
- Provide for excellence in internal and external customer service. Create a positive experience for customers, water users and communities through professional and courteous behavior and producing high quality results.

Secondary Functions:

- Ability to resolve client problems and answer technical questions in a timely and responsive manner as needed.
- Recommend and lead efforts to improve existing processes, quality or client satisfaction.
